AUGUST EVENT UPDATE

- August has historically been one of the slower months for scheduled events as suppliers push their budgets toward the fall and holiday seasons.
- Steps our Sales and Operations teams are taking to have more events scheduled in our slower months:
 - Continuing to partner with Target, the Sales team now has access to the Target Feature Calendar throughout the year; this will allow the Sales team to partner with suppliers to activate while their products are scheduled to be on the feature.
 - Actively rescheduling events and swapping stores; by tracking inventories well in advance, fewer events will be canceled due to lack of inventory.
 - Potential opportunities with other corporate divisions: If you are interested in temporary work at Sam's please alert your scheduler- we will do our best to increase your work hours.
